AMA Manual of Style

AMA was developed by the American Medical Association for the purpose of writing medical research. References are found at the end of a manuscript and are titled "Reference List," and each item should be listed in numerical order (two references should not be combined under a single reference number) as opposed to alphabetically.

Introduction // Purdue Writing Lab

Citations and references are the two parts needed for AMA referencing. The citation should be found in the text, and the full reference should be found in the reference list at the end of the research paper. Both components are linked by a number, which is defined by the order of appearance within the text (starting with 1, then 2, etc.).
