Most democratic countries in the world are governed by a federal system, including Canada, the U.S., Australia, India and Argentina. Even the EU is a federal system, although one of the very few examples where the members of the “upper houses” in the federation are not appointed or elected, but are delegates of the respective governments.

What is Federalism? - History

In United States history, four periods of widespread Constitutional criticism have been characterized by the idea that specific political powers belong to state governments and not to the federal government—a doctrine commonly known as states rights. At each stage, states' rights advocates failed to develop a preponderance in public opinion ...

History of the United States Constitution - Wikipedia

Federalism is the theory or advocacy of federal principles for dividing powers between member units and common institutions. Unlike in a unitary state, sovereignty in federal political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.
