Manning | Netty in Action

Netty in Action introduces the Netty framework and shows you how to incorporate it into your Java network applications. You'll learn to write highly scalable applications without the need to dive into the low-level non-blocking APIs at the core of Java.

Netty in Action by Norman Maurer - Goodreads

Netty's codec classes; What is a codec? This conversion logic is handled by a codec, which consists of an encoder and a decoder, each of which transforms a stream of bytes from one format to another. Decoders. These classes cover two distinct use cases: Decoding bytes to messages — ByteToMessageDecoder and ReplayingDecoder
