Psychological Trauma Of Crime Victimization

The trauma of victimization is a direct reaction to the aftermath of crime. Crime victims suffer a tremendous amount of physical and psychological trauma. The primary injuries victims suffer can be grouped into three distinct categories: physical, financial and emotional. When victims do not receive the appropriate support and intervention in the aftermath of the crime, they suffer "secondary" injuries.

Trauma of Victimization - National Center for Victims of Crime

The psychological trauma of victimization can be separated into two phases: the initial crisis reaction to the violation, and the long-term stress reactions it sometimes causes, with the second of these often exacerbated by additional "assaults" by society and its institutions.
