NCERT Solutions for Class 9 Science Chapter 8; NCERT Solutions for Class 9 Science Chapter 9 ... The Fundamentals of Physical Geography Topic: Weathering. NCERT notes on important topics for the UPSC civil services exam. These notes will also be useful for other competitive exams like banking PO, SSC, state civil services exams and so on ...

NCERT Notes: Geography- Weathering | BYJU ' s

The process of weathering alters rocks at the earth's surface and breaks them down over time into fine-grained particles of sediment and soil. Weathering is the result of the interactions of air, water, and temperature on exposed rock surfaces and prepares the rock for erosion. Erosion is the movement of the particles by ice, wind, or water.

Weathering - CliffsNotes

Physical weathering Physical weathering occurs when rock is broken down into smaller pieces by the effects of temperature and water. Exfoliation weathering (or 'onion-skin' weathering) is caused by very hot weather. Freeze-thaw weathering is caused by the melting and freezing of water.
