John James Audubon's Birds of America is a portal into the natural world. Printed between 1827 and 1838, it contains 435 life-size watercolors of North American birds (Havell edition), all reproduced from hand-engraved plates, and is considered to be the archetype of wildlife illustration. Nearly 200 years later, the Audubon prints are coming to life once again, thanks to our vibrant digital library.

The printing of the plates is horrible, I have an older printing from the 1960's and the print quality is so much better. I got this one because the older one is my favorite bird book, I can locate new birds faster with it then any other bird book, and it is wearing out. I keep using the old book. Read more.
